will depend upon a number of factors including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load.

The figures are based on the new test (WLTP) and are translated back into outgoing test (NEDC) in order to ensure a comparison between the vehicles.

For the assessment of taxes or other duties based on CO<sub>2</sub>-emissions, the CO<sub>2</sub> figures may differ to the figures stated here. The figures shown consider optional equipment and the different size of wheels and tyres available on the selected model and may vary during the configuration.

Further information about the official fuel consumption and the specific CO<sub>2</sub> emission of new passenger cars is available in a guide available at all selling points and at <http://cartueldata.direct.gov.uk/in> in the United Kingdom, at <http://www.dat.de/angebote/verlagsprodukte/leitfaden-kraftstoffverbrauch.html> in Germany or an equivalent guide published by your local government authority.
