The Rolls-Royce Motor Cars Maintenance Program

The Rolls-Royce Motor Cars Maintenance Program is a benefit designed to help reduce the cost of ownership. The program has been devised with the following objectives: to maximize vehicle safety, reliability, and resale value by minimizing breakdowns resulting from wear, and minimizing cost and inconvenience by computing maintenance intervals based upon the specific way each individual vehicle is driven.

2023 Rolls-Royce Motor Cars originally purchased from an authorized Rolls-Royce Motor Cars dealer in the United States are covered by the Rolls-Royce Motor Cars Maintenance Program for 48 months/ unlimited miles. * Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Service Loaner, or company vehicle, whichever is earlier.

Any authorized Rolls-Royce Motor Cars dealer in the United States will perform the scheduled maintenance services on your vehicle at no expense to you.

*If the motor car is used for commercial purposes (chauffeur service, limo service, hire car, hotels, etc.), the maintenance period is 48 months or 100,000 miles (160,000 km), whichever occurs first.

Coverage

The Rolls-Royce Motor Cars Maintenance Program covers all factory-recommended maintenance. The timing for Oil Services and other maintenance services can be determined by the Condition Based Service (CBS) system. Additional specific items that need replacement due to normal wear and tear, and that are not covered by the original New Vehicle Limited Warranty – such as brake pads, brake rotors, and wiper blade inserts – are included, provided wear and tear exceeds Rolls-Royce Motor Cars wear limits. Any adjustments required due to normal operating conditions are also included. See the Maintenance Summary of this Booklet for additional information.

Exclusions from coverage include the following:

- ▶ Items reimbursable under your New Vehicle Limited Warranty
- ▶ Gasoline and gasoline additive
- ▶ Windshield washer additive (except when in conjunction with scheduled maintenance)
- ▶ Tires, wheel alignment, tire balance and rotation
- ▶ Wear and tear of soft trim items, such as: seats, carpets, moldings, headliner, door panels and all chrome trim

The Rolls-Royce Motor Cars Maintenance Program

- ▶ Altered or unreadable Vehicle Identification Number (VIN), or odometer irregularities or vehicles where the true mileage cannot be determined

Intervals

Rolls Royce Motor Cars recommends that you follow the maintenance intervals starting on page 8 or as indicated by the Rolls-Royce Motor Cars Condition Based Service system.

Maintenance intervals on motor vehicles have conventionally been specified based upon accumulated mileage. However, driving conditions have a major influence on routine maintenance; distance traveled is only one of the significant factors. A vehicle driven for 50,000 miles of short trips in the city with numerous cold starts, prolonged periods of idling, stop-and-go driving, and high engine speeds during acceleration requires more frequent maintenance intervals than a vehicle driven for 50,000 miles for long distances at low engine speeds primarily at operating temperature.

The advanced technologies at Rolls-Royce Motor Cars have led to the development of the unique Rolls-Royce Motor Cars Condition Based Service (CBS) system which computes service intervals based not only upon the accumulated mileage but considering important factors such as high or low engine speeds, and short or long trip driving.

Condition Based Service (CBS)

CBS is a further development of the Service Interval Indicator System. Sensors and sophisticated algorithms take even more detailed account of the various conditions of vehicle use.

The remaining times for selected maintenance tasks as well as any legally prescribed dates are displayed to you individually:

- ▶ Engine oil
- ▶ Brakes - front and rear separately
- ▶ Brake fluid
- ▶ Vehicle check
- ▶ Required State Inspection(s)

CBS thus determines the recommended maintenance schedule. This data can also be read from the vehicle key by your Rolls-Royce Motor Cars Service Advisor and used to propose the time for recommended maintenance.

Disconnecting the battery during periods of long-term storage will interrupt the calculation of time-based services. Rolls-Royce Motor Cars recommends that you have all items requiring time-based maintenance, such as brake fluid, and possibly also the engine oil and microfilter, brought up to date by your Rolls-Royce Motor Cars dealer. Also see the section on battery care on page 14 of this Booklet.

Service Required

The current service status is automatically saved in the vehicle's ignition key. The Service Advisor at your Rolls-Royce Motor Cars dealer has a device called a key reader. When your Service Advisor inserts your key into the key reader, all pertinent vehicle and servicing data will be available, and a customized maintenance checklist is printed out based on the specific operations called for by the Condition Based Service.

Special Note – Maintenance Intervals

Recommended maintenance intervals for your vehicle are determined primarily by the Condition Based Service (CBS) system. The maintenance items stated herein reflect the latest information available at the time of the printing of this Booklet and are subject to change. The most current maintenance recommendations are available from your authorized Rolls-Royce Motor Cars dealer.

The performance of certain subsequent maintenance items or services, as recommended to properly maintain your vehicle, will be specified at intervals computed by the Rolls-Royce Motor Cars Condition Based Service system as follows:

► Oil Service: Engine oil should be changed with the engine at operating temperature.

All 2023 model year Rolls-Royce Motor Cars are factory-filled with Rolls-Royce Motor Cars High Performance Synthetic oils.

Rolls-Royce Motor Cars recommends that you check your engine oil level whenever you add fuel to your vehicle. For information on checking your engine oil level, we recommend that you refer to your vehicle's Owner's Manual or consult your Rolls-Royce Motor Cars dealer.

If an engine oil service is being performed or you need to add oil between oil changes, for the recommended engine oil for your Rolls-Royce vehicle, we recommend that you refer to the Owner's Manual or consult your Rolls-Royce Motor Cars dealer.

It is recommended that the following maintenance services be performed at the mileage/time stated (time intervals begin from the vehicle's production date):

- Oil Service: 12 months or 10,000 miles or when specified by CBS.
- Brake Fluid Service: First brake fluid change is at 36 months, then every 24 months afterwards, or when specified by CBS.

- ▶ **Oxygen Sensor Service:** The oxygen sensor deteriorates strictly on a mileage basis and must therefore be replaced every 150,000 miles to maximize vehicle fuel economy and minimize exhaust pollution.
- ▶ **Spark Plug Service (not shown in CBS):** Replace at every 60,000 miles.
- ▶ the engine coolant has a long-term rating and does not need to be changed except for system repairs.
- ▶ the automatic transmission fluid has a long-term rating and does not need to be changed except for repairs.

Rolls-Royce Motor Cars has undertaken to provide the most modern technological advances not only to the design and production of your vehicle, but also to computing of the recommended service schedule based on your vehicle use and driving style. Should you request more frequent maintenance service, the cost of these services will not be covered by the Maintenance Program. Your Rolls-Royce Motor Cars dealer will be pleased to provide these maintenance services.

Your Rolls-Royce Motor Cars dealer has made a substantial investment in special Rolls-Royce service tools to enable Rolls-Royce Motor Cars Trained Technicians to perform quality repairs on your Rolls-Royce. Your Rolls-Royce Motor Cars dealer will be glad to assist you in servicing, maintaining, and repairing your Rolls-Royce.

Fuel Quality – Gasoline

Please refer to your Owner's Manual for important information on the fuel recommended for use in your vehicle. Use fuels advertised to have adequate detergency and low alcohol (such as ethanol) content. Use of fuels with insufficient detergent and/or excess alcohol can cause drivability problems that necessitate cleaning intake valves and fuel injection valves, and, when applicable, adjusting the engine idle. Your Rolls-Royce Motor Cars dealer can also recommend a gasoline additive that will provide sufficient detergency. Cleaning of intake valves or, when applicable, fuel injection valves, or adjustment of engine idle, necessitated by use of inappropriate fuel, is not covered under the Maintenance Program. For additional information, see the Warranty Section of this Booklet.

12 Volt Battery Care

WARNING

Battery posts, terminals and related accessories contain lead and lead compounds; chemicals known to the State of California to cause cancer.

If your car is driven only for short distances of less than 10 miles over a prolonged period, without an occasional drive at highway speeds, the engine's charging system will not maintain the battery. Insufficient use of the vehicle could result in short-term starting problems and in the long term could damage the battery.

In case your car will not be operated for several weeks, it is advisable to:

- ▶ consider using a proper trickle charger, following the charger manufacturer's instructions, to maintain the battery's state of charge; or
- ▶ consult your Rolls-Royce Motor Cars dealer regarding battery removal. Once removed, the battery must be charged and stored in a cool, dry place where it can be protected from freezing. If the battery will be stored for over 3 months, it must be recharged every 3 months, or else it will become damaged and useless.

It is recommended that you consult with your authorized Rolls-Royce Motor Cars dealer for further guidance and information.

Corrosion Protection

Extensive corrosion protection measures implemented by Rolls-Royce Motor Cars now make it possible to offer a 12-year unlimited mileage anti-corrosion warranty against rust perforation on your vehicle, provided that the vehicle is properly maintained as more fully discussed in the Warranty Section of this Booklet (page 33).

The major degree of corrosion protection is due to the electrophoretic dip painting process which cathodically deposits paint particles on all body parts, attracting paint particles into the minutest cavities or seams. Body parts are designed to provide optimum corrosion protection.

During manufacture, exterior body parts receive an additional corrosion protection coat. Hood, trunk, doors, and other body parts are coated with PVC and sealed from the outside.

All floor panels receive a resilient coating of PVC for maximum protection against damage due to stones, etc.

Corrosion protection materials tested over many years are applied to the surfaces of cavities and to the entire underside of the vehicle during and after assembly.

For additional information on the 12-year unlimited mileage anti-corrosion warranty, see the Warranty Section of this Booklet (page 36).

Restoring Corrosion Protection

Please take care that anti-corrosion material is replaced when your car is repaired after body or chassis damage.

Cleaning

To help protect the long-term quality of the soft top cover, we recommend that it be regularly cleaned using the recommended vehicle care products.

We recommend that all teak decking, open pore wood, interior leather trim and exterior bright work be regularly cleaned using the recommended vehicle products.

Corrosion Protection

Cleaners

At your authorized Rolls-Royce Motor Cars dealer, you can obtain the special cleaners and care products formulated for your Rolls-Royce. Rolls-Royce Motor Cars recommends that you use these cleaners and care products. They are factory-approved, laboratory- tested for the care and protection of the materials used in your Rolls-Royce. Do not use solvents such as nitro thinner, cleaning solvents, fuel, or the like, and do not use cleaners that contain alcohol, as they can cause damage.

California Emission Control System Limited

This warranty applies to California certified vehicles distributed by Rolls-Royce Motor Cars North America, LLC (Rolls-Royce Motor Cars NA) that are registered and operated primarily in California.

*The California Emissions Control System Limited Warranty applies to all 2023 U.S.-specification Rolls-Royce Motor Cars registered in California or any state that has adopted California emission warranty provisions. Currently, the following states have adopted California emission warranty provisions: Connecticut, Colorado, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington. Vehicles covered by this warranty are also covered by the Federal Emission Warranty.

Rolls-Royce Motor Cars NA warrants to the original purchaser and each subsequent owner that the vehicle is:

- a. designed, built, and equipped so as to conform with the applicable California Air Resources Board emission standards.

- b. free from defects in materials and workmanship which cause any part that can affect emissions to fail to conform with applicable requirements or to fail a California Smog Check test or EPA-approved short test for a period of 3 years or 50,000 miles, whichever occurs first.

- c. free from defects in materials and workmanship in emission-related parts, which are contained in the California Emission Warranty Parts List on page 50, for a period of 7 years or 70,000 miles, whichever occurs first.

Coverage begins on the date of first retail sale or the date the vehicle is first placed into service as a sales demonstrator, Service Loaner, or company vehicle, whichever is earlier.

California Emission Control System Limited

To obtain service under this warranty, the vehicle must be brought, upon failure of a Smog Check test or upon discovery of the defect, to the workshop of any authorized Rolls-Royce Motor Cars dealer, during normal business hours. The authorized Rolls-Royce Motor Cars dealer will honor or deny your claim within 20 days. If the claim is denied, the authorized Rolls-Royce Motor Cars dealer will notify you in writing of the reason(s).

The authorized Rolls-Royce Motor Cars dealer is required by law to honor the claim if notice is not given to the owner within 20 days. The authorized Rolls-Royce Motor Cars dealer will, without charge for parts or labor (including diagnosis), either adjust, repair, or replace the defective part and other parts affected by the failure of the warranted part, if any. If your vehicle failed the California Smog Check test or an EPA-approved short test, then Rolls-Royce Motor Cars NA will repair your vehicle so that it will pass this test. Items that require scheduled replacement are warranted prior to their first replacement interval, or to the end of this warranty, whichever occurs first. Rolls-Royce Motor Cars NA may repair a part in lieu of replacing it when performing warranty repairs. Parts for which replacements are made become the property of Rolls-Royce Motor Cars NA. After 3 years or 50,000 miles, and in accordance with paragraph (c) above, such repairs are limited to the repair or replacement of those parts identified in the California Emissions Warranty List.

Vehicles sold in California are also subject to Federal emission warranty provisions that run concurrently. For California vehicles, the specific emission control components listed on page 45 are also covered under the Federal Emission System Defect Warranty of 8 years or 80,000 miles, whichever occurs first.

If, within 7 years or 70,000 miles, whichever occurs first, the vehicle fails a Smog Check because of a defect in a part listed in the California Emission Warranty Parts List on page 54, repair or replacement will be performed under this warranty.

A repair performed as the result of a Smog Check test failure due to a defect in a part, which is warranted for 7 years/70,000 miles, is covered.

Warranty repairs do not constitute an extension of the original limited warranty period for the vehicle or a part thereof.

California Emission Control System Limited

In all cases, a reasonable time, not to exceed 30 days, must be allowed for a warranty repair to be completed, after the car is received by the authorized Rolls-Royce Motor Cars dealer.

It is the owner's responsibility to have all maintenance services performed (at the owner's expense when applicable), as prescribed in the maintenance schedule for the Rolls-Royce Motor Cars Emission Control System. Recommended service intervals are computed by the Condition Based Service system and displayed on the instrument panel.

However, Rolls-Royce Motor Cars NA will not deny your warranty repair claims solely because you do not have maintenance records, or you did not perform maintenance unless Rolls-Royce Motor Cars NA demonstrates that such lack of required maintenance is a direct cause of the emission control system failure. The instructions for recommended maintenance and use can be found in

the Owner's Manual and in the Service section of this Statement.

It is strongly recommended that any replacement parts used for maintenance, repair or replacement of emission control systems be genuine Rolls-Royce Motor Cars Service Parts or Rolls-Royce Motor Cars Authorized Remanufactured Parts. Without invalidating this warranty, the owner may elect to have maintenance, repair or replacement of the emission control systems performed by any automotive repair establishment or elect to use parts other than Rolls-Royce Motor Cars Authorized Remanufactured or genuine Rolls-Royce Motor Cars Service Parts. However, the cost of such service or parts will not be covered under this warranty, except in emergency situations. In an emergency, where an authorized Rolls-Royce Motor Cars dealer is not reasonably available or a warranty replacement part is not available within 30 days, repairs may be performed at any available service establishment or by any individual using any replacement part.

California Emission Control System Limited

A repair not completed within 30 days constitutes an emergency. Rolls-Royce Motor Cars NA will reimburse the owner for such emergency repairs (including labor, parts and diagnosis not to exceed Rolls-Royce suggested retail price for all warranted parts replaced and labor charges based on the manufacturer's recommended time allowance for the warranty repair and the geographically appropriate hourly labor rate) that are covered under this warranty. Replaced parts and paid invoices must be presented to an authorized Rolls-Royce Motor Cars dealer as a condition of reimbursement for emergency repairs not performed by a Rolls-Royce Motor Cars dealer.

The use of replacement parts, which are not of equivalent quality, may impair the effectiveness of emission control systems. If other than genuine Rolls-Royce Motor Cars Service Parts or Authorized Remanufactured Parts are used for maintenance, repair or replacement of components affecting emission control, the owner should obtain assurances that such parts are warranted by their manufacturer to be equivalent to genuine Rolls-Royce Motor Cars parts in performance and durability. Rolls-Royce Motor Cars NA assumes no liability under this warranty with respect to repairs of, or damage caused by, parts other than genuine Rolls-Royce Motor Cars parts.

However, the use of non-genuine Rolls-Royce Motor Cars replacement parts does not invalidate the warranty on other components unless non-genuine Rolls-Royce Motor Cars parts cause damage to warranted parts.
